**Field of Application definition, as per US FDA, CFR
Title 21 for use of colours in cosmetics.**

A - Permitted for colouring cosmetics generally, including cosmetics intended for use in the area of the eye, in amounts consistent with current good manufacturing practice.

B - Permitted for colouring externally applied cosmetics, including cosmetics applied to the area of the eye, in amounts consistent with good manufacturing practice.

C - Permitted for colouring cosmetics generally in amounts consistent with current good manufacturing practice.

D - Permitted for colouring externally applied cosmetics in amounts consistent with current good manufacturing practice.

E - Permitted for colouring externally applied cosmetics in amounts not exceeding 0.01 percent by weight of the finished cosmetic product.

F - Permitted for colouring cosmetic lip products in amounts not exceed 3% total colour by weight of the finished cosmetic product.

G - Permitted for colouring cosmetics intended for use in the area of the eye, face & nail, in amounts consistent with current good manufacturing practice.

**Ø Field of application definition, as per EC directive
1223/2009 & IS:4707 for use of colours in cosmetics**

1 - Colouring agents allowed in all cosmetic products.

2 - Colouring agents allowed in all cosmetic products except those intended to be applied in the vicinity of the eyes, in particular eye make-up and eye-make-up remover.

3 - Colouring agents allowed exclusively in cosmetic products intended not to come into contact with the mucous membranes.

4 - Colouring agents allowed exclusively in cosmetic products intended to come into contact only briefly with the skin.

a - 3% maximum concentration in the finished product.

b - 6% maximum concentration in the finished product.

E - numbers, E-104, E-122 etc. denote that the respective colour has to meet European food colour directive for purity.

≈IS 4707: Indian Standard for Dyes, Colours and Pigments permitted to be used in Cosmetics and Soaps.

Legends

= One World One Quality products are High Purity Colours with low impurities which will meet appropriate legislation of JECFA, USA, Europe, Japan, China and India where applicable.

C.I. No. = Colour Index Number

X = Not Permitted

S = Small Use

Na = Sodium

R = Recommended

N.A = Not Applicable

M = Major Use

NR = Not Recommended

-- = Data not available

LAVANJA®

(*) = These items are permitted to be used for those cosmetics which are not supposed to contact with mucous membrane.

(**) = Dye content is indicative and for reference only.
